To Whom It May Concern:

This letter is to highly recommend JOSEPH EVE (JE) for financial and accounting full service solutions. JE has provided timely and efficient best practice services for our tribal gaming operations.

Following a disastrous period of poor financial management, the Omaha Tribe reconstituted our gaming operations. JOSEPH EVE moved onto the scene quickly and began a thorough overhaul of the financial foundation of our operations and helped establish order through disciplined accounting and diligent direction in terms of operational support.

Beyond providing best practices in turbulent environments, JOSEPH EVE having been proactive in communicating problems to management and in creatively finding solutions. Consistently a team player, JE has been consistently professional and truly a pleasure with which to work alongside.

It is without question that I highly recommend the staff and the results orientated environment that JE has afforded our gaming operation. I would be glad to discuss with any potential client the positive experience we have enjoyed with JOSEPH EVE.

Sincerely,

Taylor Keen
